Objective

Enthusiastic and adaptable fresher with a strong passion for learning and collaboration. Eager to apply new skills and technologies to achieve company objectives. Committed to contributing effectively to team goals and driving overall performance.

Technical Skills

- **Programming Languages:** C, C++, JavaScript
- **Frontend Technologies:** HTML5, CSS3, Bootstrap, Tailwind, jQuery, AJAX, React.js, Redux
- **Backend Technologies:** Node.js, Express.js, MongoDB, MySQL
- **Tools and Technologies:** Git, GitHub, VS Code, Postman, RESTful APIs, Sublime Text
- **Soft Skills:** Collaboration, Problem-Solving, Time Management, Leadership, Team Player

Education

- **B. Tech in Information Technology**, DDU Gorakhpur University, Gorakhpur 2021-2025
CGPA: 7.31
Relevant Coursework: C Programming, Data Structures and Algorithms, Computer Network, DBMS, Operating Systems, OOPs
- **Intermediate(12th)**, V.S.A.V Inter College Gola Bazar, Gorakhpur 2020-2021
Percentage: 70%

Certifications

- Cloud Computing Certification, NPTEL
- JavaScript Skill Certification, HackerRank
- Node.js Skill Certification, The Linux Foundation
- Data Structures & Algorithms Using C++, Coding Blocks
- Full Stack Web Development using Node.js, Coding Blocks

Projects

E-Commerce Store | [Link](#) | React.js, Redux, Tailwind, Node.js, Express.js, Authentication (JWT), MongoDB

- Developed a full-stack MERN E-Commerce application with user and admin functionalities.
- **User:** Shop by category, filter products, add carts, delete carts, write reviews, and make secure payments.
- **Admin:** Perform CRUD operations on products, manage inventory, track orders, and confirm purchases.
- Integrated a secure payment gateway, real-time updates, and responsive design for a seamless experience.

Job Portal | [Link](#) | React.js, Redux, Tailwind, Node.js, Express.js, Authentication (JWT), MongoDB

- Developed a full-stack MERN application facilitating seamless interaction between students and recruiters.
- **Student Features:** Job search with filters (city, role, salary), profile management, and resume upload/update.
- **Recruiter Features:** Company profile creation, job postings, resume reviews, and job request management.
- Optimized for responsiveness and efficient user experience.

Achievements

- Successfully qualified for the first round of the TVS Credit E.P.I.C 6.0 IT Challenge, an online quiz hackathon.
- Completed 450+ Standard Level LeetCode questions, reflecting strong problem-solving abilities and a commitment to continuous coding skills development.
- Earned 10 badges on LeetCode, including 50-day, 100-day, and 200-day streak badges, as well as 7 monthly badges for consistent problem-solving.
